

PRICING GUIDE

Hello & Welcome

We are Heart Peaks Studio photography & cinema

Our style is best described as artistic-documentary.

We are documenting your day as it folds, capturing real emotions,
but we also put a lot of energy into creative perspective of each shoot.

This is how we tell your amazing story.

Hiring wedding photographers has always been stressful and difficult. We
wanted to change that.

We wanted to offer incredible photography and video at a great price that was
reliable, consistent and meaningful.

We did just that. Whether photographing a small intimate wedding
or 500 people ceremony, our goal is to capture every memorable
moment, the atmosphere and your emotions.

THIS GUIDE WILL HELP ANSWER YOUR PHOTOGRAPHY QUESTIONS

TWO PHOTOGRAPHERS

We always work with two photographers. This enables us to commit all of our attention to shooting. One of us also has to handle the other tasks (carrying equipment, setting up lights, holding reflectors and much more). Also, we want to cover all the angles so that we do not miss any important shoots.

IMAGES

Your JPEG images will be delivered in full high-resolution. Images will be optimized for exposure, white balance, sharpening, color correction, lens correction, crop and overall enhancements. Post processing of the photographs is demanding job because we process every photograph individually to bring out it's best. It will take anywhere from 4-6 weeks after your wedding date to receive your photographs.

ONLINE GALLERY

Once the editing of the photos is completed all wedding or engagement photos will be uploaded to password protected online viewing galleries. These online galleries are a perfect way to view and share your photos with friends and family, even allowing them to download individual photos or order prints without your personal involvement. You can also hide photos that you don't want to share or share only your favorite list.

PRINT COPYRIGHTS

You can use your images in a personal capacity any way that you like. Want to order prints? Create albums? Share with your friends? You can do it all! We will include print copyrights with your images. What you will not be able to do is sell them for money, license them for commercial use or give permission to anyone else to do these things. WS Photography will maintain the ownership copyrights to our images.

ENGAGEMENT PHOTO SESSION

Engagement sessions are useful in many ways. For one, if we do them early, you can use the photos for Save the date cards or creating Guest book. You will feel more comfortable on the wedding day if you worked with your photographer before. It is two hours of practice. If your wedding is not in the city and you really want some photos of Chicago skyline and Riverwalk, engagement sessions are perfect addition to your wedding day photos. Sessions are 90 minutes to two hours long and you would get 50-70 edited high-resolution images.

WEDDING ALBUM

Our Signature Albums are beautiful coffee table albums. The quality of the paper and print is impeccable and each book is uniquely designed by us and printed and bound by hand in New York. We will design 20 spreads and you can pick from 8x12 or 12x12 sizes. If you want to add more pages or want larger size of the album, price will be different. Each album is uniquely designed and you can choose your cover options (leather, canvas, a La Carte Add-Ons silk) in variety of colors and engraving. For every additional album you would get 25% o the price.

HOW TO RESERVE THE DATE

To reserve your date is easy. We require a 30% deposit and a signed agreement – that's it!

THIS GUIDE WILL HELP ANSWER YOUR VIDEOGRAPHY QUESTIONS

HIGHLIGHT FILM

A highlight is a film expertly crafted with editing includes the best moments of your day set to music. We weave in live audio such as messages that you record for each other, your vows, & audio from your ceremony & toasts. The result is a cinematic film that captures the emotions of your day so that you can relive it over and over again throughout your marriage.

COVERAGE FILM

Coverage film is the simple edit without music for Ceremony, Introductions, Speeches, Cake cutting, First Dances and reception which has a different length depending on your wedding.

4K VIDEO

4k is twice the resolution or pixels of a 1080P video. 4k is a great option for people with 4k screens, or those that wish to show their video on a very large screen. Most people are happy with HD quality, but 4K is great for those that want to see more detail, and will be more common in the future.

MUSIC FOR MY VIDEO

We can choose music selections to use for the video montages on your full length video, and so can you. Please note that a song needs to be licensed to show the video online. If you want to select your own songs for clips that you plan to publish online, we add a charge (usually \$25-50 per song), and give you the music licensing websites to browse and pick from.

DELIVERY TIME

Your digital delivery will be ready 2 to 4 months after your event date.

RAW FOOTAGE

Raw footage is the video straight from the videographer's camera from the wedding day captured by all of our video cameras. It can be delivered to you after you have the finished edited HIGHLIGHTS film. As such the raw footage files use the audio on the camera. Giving you the raw footage is like a baker giving you the ingredients for your cake but not baking it.

SAME DAY TESAER

1-minute video released day after your wedding.

TESAER TRAILER

1-minute video released the week after your wedding.

PHOTO + VIDEO

ULTIMATE BUNDLE \$8300

- 10 hr of photo coverage
- 1 photographers
- Online gallery
- Rights to photos
- Unique style & edit
- 10 hr of video coverage
- 1 cinematographers
